

Goliath G370 Rear Loader

Our Goliath rear loader product line offers reliability, simplicity and performance.

Our Goliath rear loader product line offers reliability, simplicity and performance. Engineered with Smart Steel construction, a tough packer panel, plated hydraulic tubing and a trackless hopper design (resulting in easy operation and maintenance) the Goliath series is the industry's most productive heavy-duty rear loader. Goliath G370 is the premium rear loader model and offers our highest compaction and the largest hopper in the industry.
