

Residential Multi-lift

Our Residential hook-lifts are engineered for a 36" hook height.

Precision Waste Systems Limited manufactures a residential hook-lift container, for the smaller truck systems with a 36 inch hook height. Manufactured in two different styles, rectangular or tub design we have plenty to choose from. The containers can be used for both residential applications or commercial sites and are ideal for those tight locations. The perfect size and design is waiting for you... just give us a call.
